Main Axes

- Open Polyclinics
- Mobile Units
- Shelters
- Volunteers
- Crisis Management
- International Missions

Photo: MdM’s Photo Gallery
Social Welfare & Social Cohesion

- Provision of medical, pharmaceutical and psychosocial support and assistance
- Health promotion to social vulnerable groups
- Vaccination coverage for children, support to elderly persons & food distribution
- Evaluation of operation, to meet and adapt to the actual needs of beneficiaries
- Collaboration with public bodies and private initiatives
Our Actions (1/2)

**Open Polyclinics**

Open Polyclinics operate in Athens, Perama, Thessaloniki, Patras, Chania and Kavala.

**Mobile Units**

Fully equipped mobile units operate in order to access people in remote regions of the country.

**Shelters**

The 1st Night Shelter for homeless persons operates in Athens, in addition to a Shelter for vulnerable Asylum Seekers.

**International Missions**

Emergency humanitarian and medical aid is provided to vulnerable populations through international missions.
Our Actions (2/2)

Supporting ROMA populations
Support to the vulnerable social group of ROMA in various regions throughout the country.

Supporting Homeless persons
Assistance to homeless persons and people at risk of facing homelessness.

Racist Violence
Recording, observation and confrontation of racist and xenophobic incidents.

Crisis Management
Emergency humanitarian and pharmaceutical support to populations affected by natural disasters.
Report per Activity
• Persons belonging to vulnerable social groups face extremely poor living conditions.

• Doctors of the World - Greece collaborates with local bodies in order to address the growing needs arising from the increasing number of vulnerable population.

The program “Social Structures confronting poverty in Athens Municipality” is implemented within the framework of the Operational Program “Human Resources Development”, is financed by the European Social Fund and promotes the development and operation of an expanded network of Social Structures confronting Poverty.

Within this network, Doctors of the World – Greece has enhanced the operation of a Social Pharmacy.
Analysis

• **12,777 cases** received pharmaceutical coverage in 2014.

• The pharmacists of the Social Pharmacy provided their services to **1,999 individuals**.
Shelter for Asylum Seekers

In 2014:

→ 341 individuals were accommodated.
→ Shelter was provided to 275 men, 66 women and 3 children.
→ The main countries of origin are Greece, Afghanistan, Iran and Syria.

➢ The project is implemented by Doctors of the World – Greece in collaboration with the Greek Council for Refugees.

➢ It refers to the operation of a Shelter for Asylum Seekers, with the capacity to accommodate up to 70 people.

➢ The main aim of the Shelter is to protect vulnerable populations and to enhance the provided services to Asylum Seekers in Greece.

➢ The project is implemented within the framework of the program “SOAM Program – Supporting Organizations that assist migrant asylum seeking population in Greece” which is funded by the European Economic Area (EEA) Grants, through the International Organization for Migration (IOM) – Office in Greece, which is the fund operator.
The Night Shelter is located in a premise that has been granted by the Municipality of Athens (49, Alikarnasou Str., Akadimia Platonos).

It operates daily with a fixed working schedule and provides night shelter to 50 homeless individuals every day. Its staff includes professionals in administration, cleaning and social services.

In 2014, accommodation was provided to 341 individuals, 275 men, 66 women and 3 children, with most common countries of origin: Greece, Afghanistan, Iran and Syria.
Mobile Units

- Doctors of the World operate **fully equipped medical mobile units**, staffed with medical doctors and auxiliary personnel of various specialties.

- The mobile units offer their services to persons living in remote areas throughout Greece, with limited or no access to the medical services.
ADAMANTIADA: Initiative for addressing children’s primary dental care in Athens.

In 2014:

→ 7,754 children received dental care.
→ 22,281 “bad teeth” were diagnosed and treated
→ 2,350 cases were in need of orthodontic treatment
“Streets of Athens” is a program aiming to the reduction of harm and the provision of primary health care and psycho-social consulting to drug users. The program, based on the principles of Harm Reduction and street intervention, has been implemented by Doctors of the World since 1988.

In 2014, material was distributed to 3,747 people, whereas 611 people received medical care.
The Pediatric-Dental Mobile Unit “LITO”, which was established in 2003, aims to provide medical care to the children living in remote areas of Greece that face difficulties in accessing healthcare facilities, for either financial or social reasons.

Specifically, through the program “Lito”, volunteer dentists and pediatricians provide free of charge pediatric and pedodontic examinations as well as pharmaceutical and immunization coverage to uninsured children.

In 2014, 679 children were examined and 433 were vaccinated.
Doctors of the World – Greece implement a street work project in different regions of central Athens and Piraeus, aiming to provide medical and social support to the increasing number of homeless persons.

In 2014, 100 homeless were benefited, whose main countries of origin were Greece and Afghanistan.

MdM’s medical team took action in Central Athens, Pedion Areos and Piraeus.
Doctors of the World - Greece, through the medical check-up program “Health for All”, provide pediatric, gynecological and ophthalmological diagnostic examinations to women and children inhabiting in various areas of the Greek mainland and islands.

In 2014, **9,913** people were benefited, 19 visits were conducted in 33 different locations, while **700** children were vaccinated.
One of the main services provided through the project “Supporting ROMA populations” is the medical and pharmaceutical coverage of children, with special focus on the vaccination coverage, preventive care and health education. Additionally, cases that require special care are referred to the relevant services of other organizations or agencies.

The program is implemented by the organization’s own resources and during 2014, services were provided to 185 children.
Other Programs under implementation:

- Vaccination Coverage
- Dentist Coverage
- 65+ Healthy Aging
- Prevention – Testing – Support
- Epidemiological Study
- Hate Crime Victims
- First Reception Centre in Mytilene
- Chios Entry Point
- Food Packages Distribution
- Humanitarian Aid Mission in Uganda
- Emergency Humanitarian Aid Missions in Greece & Abroad

Photo: MdM’s Photo Gallery
Vaccination Coverage

The project “Childhood Immunization” is implemented mainly in MdM’s Open Polyclinics in Athens, Thessaloniki, Perama, Chania and Patras, but also covers rural parts of Greece, through an adequately equipped mobile unit, offering pediatric examinations and vaccination coverage, according to the Greek National Immunization Schedule.

The program is implemented by Doctors of the World - Greece with the support of the "The Hellenic Initiative".
“Smile Project” offers both primary and secondary dental care to children, coming from families that are in a less fortunate condition and cannot afford proper dental care for their youngsters. It is foreseen that dental treatment will also be offered to adults.

The program is implemented by Doctors of the World with the support of the "The Hellenic Initiative".
65+ Healthy Aging

The project provides coverage and support to individuals over 65 years of age, by providing them with medical and psychosocial care.

The 1st basic action of the project includes the provision of medical and pharmaceutical care to the elderly.

The 2nd basic action of the project includes the provision of psychosocial support.

The program is implemented with the support of Latsis Foundation.
The project “Public Health: Prevention – Testing – Support” is aiming to the early diagnosis of HIV and Hepatitis C infection and the increased access to medical and psychosocial support through an outreach approach and screening in the community, especially for individuals at high risk.

The project is funded by EEA 2009-2014 (Iceland, Lichtenstein, Norway), through Bodossaki Foundation, and is implemented in collaboration with the NGOs PRAKSIS, “Positive Voice” and “Centre for Life”.
Within the framework of the program “Design and Development of the Control of Viral Hepatitis B, C and HIV Infection within the general and mobile populations”, the National and Kapodistrian University of Athens, in cooperation with the MSc program “International Medicine – Health Crisis Management” of the Medical School of the University of Athens and the NGOs “Doctors of the World” and “PRAKSIS”, implement an epidemiological study.

During 2014 (December), 11 persons were interviewed.
The project “Supportive, accompanying and legal services to hate crime victims” refers to the screening, recording and confrontation of these crimes in an integrated way.

This program is an integrated system of screening, recording and confrontation of all racist crimes, under the auspices of the Incidents of Racist Violence Recording Network. It operates in collaboration with NCHR, NCR, Day Centre “Babel”, Greek Forum for the Refugees, METAaction and Colour Youth, and is funded by EEA 2009-2014, through Bodossaki Foundation.
First Reception Centre in Mytilene

Screening Centre, Moria, Lesvos – Mobile Unit B

Greece, due to its unique geographical location, constitutes the main destination for thousands of refugees and migrants.

Locations, such as Mytilene, Chios, Samos, Leros, Evros, amongst others, are the most common entry points in our country.

The insufficient structures are unable to cover the needs of these vulnerable populations. Doctors of the World – Greece provide medical & pharmaceutical care, psychosocial support and humanitarian aid items.

The project is co-funded by the European Commission and the External Borders Fund.

**Beneficiaries**

- Men (2,372)
- Women (300)
- Minors (203)
Doctors of the World - Greece is present at the Screening center in Mersinidi, Chios, where primary healthcare is provided to undocumented immigrants and third country nationals that may be in need of international protection.

The services provided by MdM include medical screening, primary healthcare, provision medicines and medical consumables and finally distribution of clothing items and footwear.

The program is funded by the organization’s own resources.
Beneficiaries accept, in a monthly basis, a family package containing legumes, pasta, rice, milk, olive oil, and canned food. Quantities depend on the number of members of each family.

Additionally, families receive footwear, clothing and personal hygiene items, according to their needs.
Doctors of the World - Greece has been present in Uganda (Luweero region, Monde village) since 2009, with a project of primary healthcare. The basic aim of this mission is the support of the healthcare facility that is located in Monde, aiming to enhance the overall provision of medical healthcare services. Within the framework of this mission, volunteer doctors travel to Uganda at regular intervals and realize specialized medical tests as well as trainings to the personnel of the clinic.

It is worth mentioning that over 50% of the total number of beneficiaries are children under the age of 14.
During 2014, Doctors of the World - Greece delivered aid in the following crises:

- **January**: Kefalonia Island | supporting earthquake victims
- **May – June**: Serbia & Bosnia | supporting populations affected by the floods.
- **October – December**: Turkish – Syrian boarders | supporting Kurdish refugees that have fled from Kobane.

With 25 years of continuous action as of 2015, the organization continues to implement emergency response missions and long-term development programs in collaboration with local partners, in order to benefit those who are excluded from the health system.

...wherever people are...
Goals of the Organization for 2015

- Effective implementation of publicity actions
- Enrichment of our statute objectives in order to participate in new programs
- Effective communication and visibility activities regarding our action and especially our 25 year anniversary
- Participation in consultations of Ministries and other government bodies
